

Breathing Circuits

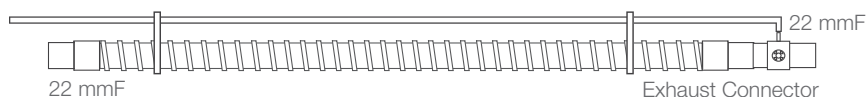

BPAP Circuits

- BPAPs may work better for those individuals who cannot comfortably breathe out against the fixed pressure of the standard device. Therefore BPAP is used for patients with restrictive or obstructive disorders, and for patients with sleep apnea who cannot tolerate the high pressure of CPAP.

BPAP CIRCUITS

	Smoothbore		
	Length	Code	Qty/Box
Adult	180 cm/71"	AL-8290-005/7	50

Breathing system for use with Respirationics BiPAP®VISION AND S/T-D
